Subject: 2561\_EMI\_210625\_Water Services South\_Watercourse determination - Lot 8 SP251866

Good morning Megan,

Sorry for the delayed response, the determination has just been awaiting approval. I can confirm that the feature traversing Lot 8 on SP251866 has been identified as drainage (for the purposes of the *Water Act 2000*) to the extent of Redbank Plains School Road. Should a determination be required further downstream of this point a field inspection would be required.

Should you have any further questions, please don't hesitate to contact me.

Regards,

Carly Nielsen

Water Officer

Subject: [2561\\_EMO\\_210617\\_WaterServicesSouth@rdmw.qld.gov.au\\_Watercourse](#) determination - Lot 8 SP251866

GW+ Ref: 2561

Good afternoon,

We are seeking a Watercourse Determination to determine the value of the mapped features on Lot 8 SP251866.

The Watercourse Identification Map identifies a number of 'yet to be mapped' features. We are of the view that the yet to be mapped features achieve the definition of a 'drainage features' under the *Water Act 2000*, being natural landscape features, including a gullies, drains, drainage depressions or other erosion features.

We would appreciate if you could please confirm this position?

Please contact me on the details below should you require any further information.

Kind regards,  
Megan
