EPBC Act referral

Note: PDF may contain fields not relevant to your application. These fields will appear blank or unticked. Please disregard these fields.

2021/8952 - Riverside Oaks Tourist Resort Title of proposal O'Briens Rd Cattai NSW Section 1

Summary of your proposed action

1.1 Project industry type

Tourism and Recreation

1.2 Provide a detailed description of the proposed action, including all proposed activities

The proposed action is development at the existing 'Riverside Oaks Tourist Resort' at Lot 28 DP 270416 in Cattai, NSW, to include:

- four (4) residential precincts (Precincts A-D) comprising 300 residences with a minimum lot size of 450m2, including internal roads and asset protection zones (APZ)
 - a 150-room hotel;
 - five (5) golf resort lodges comprising a total of 60 rooms;
 - an internal road connecting each of the above developments;
 - landscaping; and
 - the establishment of a natural conservation area.

The proposed Action will involve:

- clearing of vegetation and bulk earthworks;
- construction of internal roads;
- installation of services, including water treatment and reticulation systems, waste water treatment, electricity and telecommunications;
 - construction of a hotel and resort lodges;
 - landscaping and establishment of asset protection zones;
 - establishment and future management of a conservation area; and
 - sale and development of residential lots.

A concept development application for the Action has been lodged with the Hills Shire Council in NSW (concept DA no 1528/2019/JP). Development consent for the detailed design of each component of the Action will be sought in subsequent detailed development applications. This referral relates to the entirety of the Action and is not limited to the general concept the subject of the Concept DA.

The Land is known as the Riverside Oaks Tourist Resort and is currently an operational golf resort facility with significant tourist accommodation and social and corporate event management facilities. The Land is within Lot 28, DP 270416 to the south of O'Briens Road, to the west of Wisemans Ferry Road, to the east of the Swallow Rock Reach of the Hawkesbury River and to the north of Little Cattai Creek. This entire lot will hereafter will be referred to as the 'Land'. The 'Action Area' will refer to the development footprint incorporating all four (4) precinct areas, hotel, access roads and APZs. The biodiversity stewardship site will be referred to as the avoidance footprint and conservation area.

The proposed development and stewardship staging at the time of writing this referral is as follows:

- Precinct D Stage 1
- Precinct C Stage 2b
- Hotel & Lodges Stage 2a/3b
- Precinct B Stage 3a
- Precinct A Stage 4

Please refer to Figure 1-2 of the attached EPBC Ecological Assessment Report May 2021 for information on staging.

Ecological survey and assessment of the site has been conducted over a long-time frame with a recent submission of the attached Biodiversity Development Assessment Report (BDAR) issued under the NSW Biodiversity Conservation Act (BC Act).

Detailed survey has been undertaken to inform of the impacts, and proposed offset measures and strategy.

The BDAR advised that it is likely that significant impacts upon matters of national environmental significance would occur and as such, an EPBC referral would be required.

The attached EPBC Ecological Assessment Report May 2021 has been tailored to address the ecological impacts upon EPBC-listed matters, however some state-listed ecological communities and threatened species have been mentioned for contextual purposes.

1.3 What is the extent and location of your proposed action?

See Appendix B

1.5 Provide a brief physical description of the property on which the proposed action will take place and the location of the proposed action (e.g. proximity to major towns, or for off-shore actions, shortest distance to mainland)

The site is located to the west of the intersection of Wisemans Ferry Road and O'Briens Road in the suburb of Cattai, NSW which is approximately 47km to the north-west of Sydney. The Hawkesbury River forms the boundary to the west, and Little Cattai Creek to the south, the Cattai National Park to the west and the Hawkesbury River to the north and west.

The site is currently zoned part RE2 Private Recreation and part E2 Environmental Conservation under The Hills Local Environmental Plan 2012 (LEP 2012). .

Elevation: Approximately 1-60m AHD

The proximity of the Land to towns or other residential, commercial, conservation or tourist areas can be seen in the map provided in Section 1.3, above.

1.6 What is the size of the proposed action area development footprint (or work area) including disturbance footprint and avoidance footprint (if relevant)?

The Land has an area of approximately 227ha. The proposed Action includes a disturbance footprint of approximately 36ha and an avoidance footprint consisting of the proposed conservation area of approximately 55ha. Figure 1-4 of the attached EPBC Ecological Assessment Report May 2021 provides further information.

1.7 Proposed action location

Address - 74 O'Briens Road, Cattai, NSW, 2756, Australia

1.8 F	Primary ju	ırisdictic	n	New South Wales	
1.9 H	las the p	erson pr	oposir	ng to take the action received any Australian Government grant funding to undertake this project?	
	Yes	\subseteq	No		
1.10	Is the pro	oposed a	action	subject to local government planning approval?	
\subseteq	Yes		No		
1.10	.1 Is there	e a local	gover	nment area and council contact for the proposal?	
\subseteq	Yes		No		

1.10.1.0 Council contact officer details

1.10.1.1 Name of relevant council contact officer Development & Building Services - The Hills Shire Council 1.10.1.2 E-mail council@thehills.nsw.gov.au

1.10.1.3 Telephone Number +61 2 9843 0555

1.11 Provide an estimated start and estimated end date for the

31/12/2022 proposed action **End Date** 31/03/2030

1.12 Provide details of the context, planning framework and state and/or local Government requirements

The statutory assessment requirements applying to the concept DA are summarised at Section 1.5 of the attached EPBC Ecological Assessment Report, May 2021.

Start Date

The DA consent was granted on the property in 1989, prior to the establishment of the EPBC Act in 1999. On 6 December 1989, Baulkham Hills Shire Council granted consent for DA/89/804 that involved the following:

- 2 x 18-hole golf courses
- holiday cabins (188)
- 2 x hotels (300 rooms)
- corporate lodges (20)
- community retail facilities
- tennis club
- clubhouse
- golf academy
- maintenance / service facilities.

Whilst not all of the components of the 1989 DA have been completed, the consent remains active. The proposed Action seeks to deliver a superior environmental outcome to the 1989 approval. Numerous ecological surveys have been undertaken over recent years including the preparation of a Biodiversity Development Assessment Report (BDAR) for the 2019 concept masterplan. The intensive studies have led to a more consolidated array of precincts that allow for a much-improved corridor for fauna movement, coupled with a reduction on impacts to threatened ecological communities by several hectares.

Further information on site history is provided in Section 1.4 of the attached EPBC Ecological Assessment Report, May 2021.

The total area of the Land is 227 ha. The footprint (Action Area) of the residential and hotel developments proposed as part of the Action is 35.9ha, as shown on the Site Map, Figure 1-4 (Action/Development Area) of the attached EPBC Ecological Assessment Report, May 2021. This includes roads and access features, future housing, hotel and resort features, as well as any asset protection zones (APZs) that are required. 29.44 ha of the Action (Development) Area is vegetated.

Other documents that were submitted to The Hills Council as part of the Concept Masterplan Development Application are attached and include:

- 1. Biodiversity Development Assessment Report Riverside Oaks Golf Course 74 O'Briens Road, Cattai, March 2021
- 2. Master Vegetation Management Plan Riverside Oaks Tourist Resort Oaks Golf Course, 74 O'Briens Road, Cattai Lot 28 DP 270416. March 2021
 - 3. Biodiversity Stewardship Site Management Plan Riverside Oaks Golf Course 74 O'Briens Road, Cattai, March 2021

We have also attached the Artefact (Sept, 2019) Riverside Oaks Residential and Resort Development Addendum Archaeological Survey Report Report to Nanshan Holding (Aust) Pty Ltd, The Hills Shire Local Government Area, (public version) for your information.

The attached Flow Diagram describes the planning process and current status of the proposal. A Concept (master plan) Development Application (DA) has been lodged with Council under Part 4 of the NSW Environmental Planning and Assessment Act, 1979 and is currently being assessed. Detailed precinct-level Development Applications are expected to follow.

The attached Flow Chart illustrates the background and current status of the project in relation to the planning framework.

Previous approvals are attached under Section 1.14.1 below.

1.13 Describe any public consultation that has been, is being or will be undertaken, including with Indigenous stakeholders

The concept DA has been advertised for public comment in accordance with the Hills Shire Council standard procedures. Consultation with Indigenous stakeholders has and continues to be progressed as part of the Aboriginal Heritage Cultural Assessment Reporting (AHCAR) process which is currently underway.

Public exhibition periods were in accordance with the Environment Planning and Assessment Act 1979.

Public consultation undertaken during the planning proposal was undertaken with the agencies identified in the project status flow chart (attached).

1.14 Describe any environmental impact assessments that have been or will be carried out under Commonwealth, State or Territory legislation including relevant impacts of the project

The attached EPBC Ecological Assessment Report, May 2021 provides background and lists the environmental impact assessments that have been carried out under Commonwealth and State legislation that are most relevant to this application. A summary of previous assessments is provided in section 2.1 of the attached EPBC Ecological Assessment Report, May 2021. Other environmental impact assessment documents that are relevant to this application include the attached:

1. Biodiversity Development Assessment Report prepared by Travers bushfire & ecology dated March 2021

2. Biodiversity Stewardship Site Assessment Report prepared by Travers bushfire & ecology dated March 2021
1.15 Is this action part of a staged development (or a component of a larger project)?
Yes No
1.15.1 Provide information about the larger action and details of any interdependency between the stages/components and the larger action
The proposed development and stewardship staging at the time of writing this referral is as follows:
Precinct D – Stage 1
 Precinct C – Stage 2b
 Hotel & Lodges – Stage 2a/3b
 Precinct B – Stage 3a
Precinct A – Stage 4
Please refer to Figure 1-2 of the attached EPBC Ecological Assessment Report, May 2021 for information on staging.
1.16 Is the proposed action related to other actions or proposals in the region?
☐ Yes ✓ No

Note: PDF may contain fields not relevant to your application. These fields will appear blank or unticked. Please disregard these fields.
Section 2
Matters of national environmental significance
2.1 Is the proposed action likely to have any direct or indirect impact on the values of any World Heritage properties?
☐ Yes ☑ No
2.2 Is the proposed action likely to have any direct or indirect impact on the values of any National Heritage places?
☐ Yes ☑ No
2.3 Is the proposed action likely to have any direct or indirect impact on the ecological character of a Ramsar wetland?
☐ Yes ☑ No
2.4 Is the proposed action likely to have any direct or indirect impact on the members of any listed species or any threatened ecological community, or their habitat?
Yes No
Species or threatened ecological community
Grey-headed Flying-fox (Pteropus poliocephalus)
Impact
Section A4.2 the EPBC Ecological Assessment Report May 2021 concluded no significant impact. Refer to Section A5.1 of the attached report for further information.
Species or threatened ecological community
Dural Land Snail (Pommerhelix duralensis)
Impact
Section A4.1 of the of the attached EPBC Ecological Assessment Report May 2021 concluded significant impact. Refer to Section A4.1 for further information.
In summary, as the proposal will (a) lead to long-term decrease in the size of a population, (b) will reduce the area of occupancy and (c) will decrease the availability of quality habitat a potential significant impact in respect to EPBC Act criteria is concluded for the Dural Land Snail. Despite this conclusion it should be noted that: 1) The above endangered species assessment criterion applied to any snail species for a proposed development removing snail habitat, will generally result in a significant impact conclusion. 2) The proposal will retain viable areas remaining habitat containing recorded living specimens of each expected

- 2) The proposal will retain viable areas remaining habitat containing recorded living specimens of each expected population. Habitat enhancement measures of weed removal and relocating terrestrial habitat shelters (rocks and logs) from development areas into conservation areas will also further enhance this extent of habitat for the future. This species further justifies the necessity for this restoration to be undertaken in a careful and highly detailed manner.
- 3) Recommendations have been outlined within Section 3.10 of the attached EPBC Ecological Assessment Report to reduce the impacts on Dural Land Snail.

Species or threatened ecological community

Shale-Sandstone Transition Forest of the Sydney Basin Bioregion (SSTF)

wite. 1 bit may contain notes not relevant to your application. These holes will appear blank of unticked. I lease disregard these notes.
mpact
Section A5.1 of the attached EPBC Ecological Assessment Report May 2021 concluded - significant impact. Refer to Section A5.1 of the attached report for further information.
Species or threatened ecological community
Western Sydney Dry Rainforest and Moist Woodland on Shale
mpact
Section A5.2 of the attached EPBC Ecological Assessment Report May 2021 concluded no significant impact. Refer to Section A5.2 of the attached report for further information.
Species or threatened ecological community
River-flat Eucalypt Forest on Coastal Floodplains (RFEF)
mpact
Section A5.3 of the attached EPBC Ecological Assessment Report May 2021 concluded no significant impact. Refer to Section A5.3 of the attached report for further information
2.4.2 Do you consider this impact to be significant? Yes No
2.5 Is the proposed action likely to have any direct or indirect impact on the members of any listed migratory species or their habitat?
✓ Yes
Migratory species
White Breasted Sea-eagle
mpact
Minor cumulative impact on foraging values. Refer to Section A6.2 of the attached EPBC Ecological Assessment Report May 2021.
Migratory species
Rainbow Bee-eater
mpact
Minor cumulative impact on foraging values. Refer to Section A6.1 of the attached EPBC Ecological Assessment Report May 2021.
Migratory species
Latham's Snipe (Gallinago hardwickii)
mpact
Section A6.3 of the attached EPBC Ecological Assessment Report May 2021 concluded no significant impact. Refer to Section A6.3 of the attached report for further information.
2.5.2 Do you consider this impact to be significant? ☐ Yes ☑ No
2.6 Is the proposed action to be undertaken in a marine environment (outside Commonwealth marine areas)?
☐ Yes ☑ No

2.7 Is the proposed action likely to be taken on or near Commonwealth land?				
☐ Yes ☑ No				
2.8 Is the proposed action taking place in the Great Barrier Reef Marine Park?				
☐ Yes ☑ No				
2.9 Is the proposed action likely to have any direct or indirect impact on a water resource from coal seam gas or large coal mining development?				
☐ Yes ☑ No				
2.10 Is the proposed action a nuclear action?				
☐ Yes ☑ No				
2.11 Is the proposed action to be taken by a Commonwealth agency?				
☐ Yes ☑ No				
2.12 Is the proposed action to be undertaken in a Commonwealth Heritage place overseas?				
☐ Yes ☑ No				
2.13 Is the proposed action likely to have any direct or indirect impact on any part of the environment in the Commonwealth marine area?	1			
☐ Yes ☑ No				

Section 3

Description of the project area

3.1 Describe the flora and fauna relevant to the project area

The Land has been subject of extensive flora and fauna surveys/studies.

Sections 2.7 (flora), 2.8 and 2.9 (fauna) of the attached EPBC Ecological Assessment Report May 2021 describes the flora and fauna relevant to the project area.

Section 2.7.4 of the attached report describes the plant community types on site. All flora species observations are listed in Table A 1.1 in Appendix 1 of the attached report.

In summary, the amount of native vegetation on site is 109.23 ha. Within the Action Area/development site, there is 29.44 ha. The proposed Stewardship Site (Conservation Area) contains approx. 54.65 ha of bushland.

All fauna species observations are listed in Table A 1.2 in Appendix 1 of the attached EPBC Ecological Assessment Report, May 2021.

3.2 Describe the hydrology relevant to the project area (including water flows)

The Land is within the Hawkesbury-Nepean Catchment Management Area, with the Hawkesbury River located along the western boundary, and Little Cattai Creek along the southern boundary. There are several dams and wetlands on the Land but no permanent creeks. The dams are essentially clear of vegetation and have no plant community type (PCT) defined. The wetlands contain some vegetation and have been mapped by Travers bushfire & ecology as a freshwater wetland PCT, however they are essentially open water bodies.

Within the stewardship site, Little Cattai Creek forms part of the southern boundary.

3.3 Describe the soil and vegetation characteristics relevant to the project area

Section 2.7 of the attached EPBC Ecological Assessment Report May 2021 details vegetation characteristics.

In regard to soils, there are three (3) separate soil landscapes. The Freeman's Reach (FR) soil landscape in the low-lying areas of the site where alluvium is derived from the Narrabeen Groups, Hawkesbury Sandstone and Wianamatta Group material. The Lucas Heights (LH) soil landscape occurs in the northern parts of the site and contains the Mittagong Formation. The Gymea (GY) soil landscape occurs in the southern parts of the site, containing Hawkesbury Sandstone with minor shale and laminate lenses.

3.4 Describe any outstanding natural features and/or any other important or unique values relevant to the project area

There are areas of crevices and small caves on the Action area, mostly on west or south-west facing slopes that contain the Western Sydney Dry Rainforest vegetation. All but one of these are contained within the proposed stewardship site. One overhang will be impacted on the very edge of Precinct D as shown in Figure 1-4 of the attached EPBC Ecological Assessment Report May 2021.

3.5 Describe the status of native vegetation relevant to the project area

Three (3) threatened ecological communities, 1. Shale Sandstone Transition Forest of the Sydney Basin Bioregion, 2. Western Sydney Dry Rainforest and Moist Shale Woodland on Shale, and 3. River-flat Eucalypt Forest on Coastal Floodplains of Southern NSW and Eastern VIC listed under the EPBC Act were recorded within the Land area. All are listed as critically endangered ecological communities under this Act. The River-flat Eucalypt Forest was added to the schedules of the EPBC Act in December 2020.

Sections 2.7 of the attached EPBC Ecological Assessment Report May 2021 describes the flora relevant to the Land area. Section 2.7.4 of the attached report describes the plant community types on the Land.

The attached Master Vegetation Management Plan (VMP) provides maps of weed condition across the entire Land area.

Remnant vegetation within the Land varies greatly in condition, subject to edge effects and kangaroo grazing. Patches of Lantana are one of the dominant non-native species that occur through the remnant pieces of bushland. The three (3) vegetation communities (Shale-Sandstone Transition Forest, River-flat Eucalypt Forest and Western Sydney Dry Rainforest) are of moderate-good condition with largely 5-20% exotic weed cover on average.

Vegetation integrity scores were assessed under BAM 2017. The current condition vegetation scores are reported in the attached Biodiversity Development Assessment Report (BDAR), Table 2.6, page 51.

3.6 Describe the gradient (or depth range if action is to be taken in a marine area) relevant to the project area

The Land contains very gentle slopes across the golf course areas, with moderate to steep slopes around existing bushland areas, many with small drop offs and large exposed rocks.

3.7 Describe the current condition of the environment relevant to the project area

The condition of vegetation in general is moderate - good with typical edge effects and occasional large patches of Lantana camara.

3.8 Describe any Commonwealth Heritage places or other places recognised as having heritage values relevant to the project

The Land contains two heritage items listed under NSW statutes – 'Bungool' homestead, which is used as a function centre and the 'Merrymount Ruins'.

3.9 Describe any Indigenous heritage values relevant to the project area

The attached Artefact (Sept, 2019) Riverside Oaks Residential and Resort Development Addendum Archaeological Survey Report to Nanshan Holding (Aust) Pty Ltd, The Hills Shire Local Government Area (Public Version) describes Indigenous heritage values relevant to the project area.

The findings of the report were:

- Two Aboriginal sites (Riverside Oaks 4 (AHIMS ID 45-5-5181) and Riverside Oaks 5 (AHIMS ID45-5-5254) are located within the impact footprint of Precinct C.
- Two Aboriginal sites (Riverside Oaks RO/1 Riverside Oaks (AHIMS ID 45-5-0272) and Riverside Oaks 3 (AHIMS ID 45-5-4532) are embedded within the sandstone outcropping immediately south of planned construction.
- No earthworks will be undertaken associated with the concept DA and subsequently no impacts to Aboriginal objects will occur as part of the concept design
- A geotechnical vibration assessment has been completed by Douglas Partners confirming that Riverside Oaks RO/1 Riverside Oaks (AHIMS ID 45-5-0272) and Riverside Oaks 3 (AHIMS ID 45-5-4532) are unlikely to be impacted by the proposed works.
- Riverside Oaks 6 (AHIMS ID 45-5-5253) was identified and recorded as part of the addendum survey and will not be impacted by the proposed works.

It should be noted that there is unlikely to be any impact on the 3 nearby sites (i.e. Riverside Oaks RO/1 Riverside Oaks (AHIMS ID 45-5-0272); Riverside Oaks 3 (AHIMS ID 45-5-4532); and Riverside Oaks 6 (AHIMS ID 45-5-5253).

3.10 Describe the tenure of the action area (e.g. freehold, leasehold) relevant to the project area

The Land is a lot within an existing community title scheme and the Land is freehold, owned by Nanshan.

3.11 Describe any existing or any proposed uses relevant to the project area

The Land is known as the Riverside Oaks Tourist Resort and is currently an operational golf resort facility with significant tourist accommodation and social and corporate event management facilities. The Land presently contains two (2) golf courses, tourist lodging, club house and function centre and residential development in the north-east part of the Land, containing forty-two (42) lots. Other than the proposed Action, no other uses for the Action Area are proposed.

Section 4

Measures to avoid or reduce impacts

4.1 Describe the measures you will undertake to avoid or reduce impact from your proposed action

Section 3.6 of the attached EPBC Ecological Assessment Report May, 2021 provides detailed information on avoidance measures and strategies to minimise potential impacts. Section 3.7 provides further management recommendations.

Dural land Snail: The Dural Land Snail re-location protocol would require that prior to any habitat removal, a search for living Dural Land Snail specimens within the development areas would be undertaken by a fauna ecologist following rainfall. Recovered specimens would be relocated into retained habitat areas and monitoring of success undertaken. A snail relocation and mitigation protocol would be prepared by the project ecologist. A snail expert would be engaged to oversee the final snail relocation / monitoring plan preparation; and its eventual implementation and monitoring.

The following measures have been incorporated into the design of the Action to avoid or reduce the impact of the Action on threatened species and ecological communities and migratory bird species:

- Major access roads have predominantly been located on existing tracks or through existing cleared zones to avoid clearance of threatened ecological communities.
- Development has avoided rocky escarpment areas containing the Western Sydney Dry Rainforest and Moist Woodland on Shale, and overhangs for microbat roosting opportunity.
- Development has avoided existing dams utilised by waterfowl and wading birds including recorded migratory species (Latham's Snipe) habitat.
- Development is located away from riverside habitat which would reduce impact on White-bellied Sea Eagle nesting and perching potential along the river and the lower sheltered slopes.
 - Direct avoidance of breeding habitat for a number of threatened fauna species.
 - Avoidance of significant geological site features.
- In contrast to the previously approved master plan (1989) the current proposal places the development in four main precincts within the natural landscape instead of scattered throughout. This combined with the required reduced APZs allows larger areas of intact natural vegetation. The placement of the precincts also improves the maintenance of existing connectivity through the site. Therefore, there is an overall reduction of impacts from the 1989 approval.
 - Avoidance of impacts on steep slopes that will lessen sediment and erosion impacts.
- Consolidation of future development planning to selected environs as opposed to having them more spread out to ensure existing connectivity values are maintained.

Retained vegetation will be enhanced with the conservation zone and retained vegetation areas as per the Development Control Plan (DCP).

Other actions proposed for the Land to avoid or minimise impacts and manage the Land, include the following:

- a) Minimise clearing particularly on steeped sloped areas.
- b) Undertake feral pest management including control of foxes, cats, rabbits, avian pests, and any other miscellaneous species as required.
 - c) Limit vegetation removal in APZs and establishing OPA areas able to maintain trees.
- d) Integrated weed management under the VMP and control of high threat exotics. This particularly relates to the high occurrence of Lantana through the open forest understorey areas. This will also assist in reducing Bell Miner dominance on remaining habitat.
 - e) Implementation of a Yellow-bellied Glider Management Plan.
 - f) Implementation of a Vegetation Management Plan (VMP).
 - g) Avoidance of impacts upon PCTs 1640, 1083, 1106 and 1736 (none of which are EPBC Act listed).
 - h) Other recommended measures indicated in Section 3.7 of the attached EPBC Ecological Assessment Report May, 2021.

Future DA's may require existing reports, management plans, surveys, protocols and impact mitigation measures to be revised or updated.

4.2 For matters protected by the EPBC Act that may be affected by the proposed action, describe the proposed environmental outcomes to be achieved

The attached EPBC Ecological Assessment Report May, 2021 provides information on matters protected by the EPBC Act that may be affected by the proposed action, and describes the proposed environmental outcomes to be achieved. Conservation outcomes are illustrated in Figure 3-5 of the attached EPBC Ecological Assessment Report May 2021.

Western Sydney Dry Rainforest and Moist Shale on Woodland - 0.27ha will be directly impacted by the proposed action and 9.99ha will be conserved and improved in the proposed Biodiversity Stewardship Site.

River-flat eucalypt forest on coastal floodplains (newly listed December 2020) - 1.94ha will be impacted by the proposed Action and 10.89ha will be protected under the proposed Biodiversity Stewardship Site.

Shale Sandstone Transition Forest - 27.23ha will be impacted by the proposed Action and 28.71ha will be protected under the proposed Biodiversity Stewardship Site.

The attached Biodiversity Stewardship Site Management Plan (BSSMP) dated March, 2021 has been submitted to Council under a Concept Masterplan Development Application. The management plan addresses protection and conservation matters on site and describes outcomes to be achieved. The conservation area site will be managed in accordance with the BSSMP and protected in perpetuity.

In summary, peripheral areas within the golf course lands (outside of the subdivision lots) include areas important for biodiversity as well as areas that will be used for asset protection and fire trails. The management of these peripheral areas is to be assured through the preparation of the VMP, biodiversity stewardship agreement and a fuel management plan, with long term management being undertaken by the landowner. Where the landowner will be the relevant neighbourhood association, funding for long term management will be incorporated into the Community Title Scheme. The fuel management plan will be integrated with the VMP and will detail the ongoing vegetation management requirements of the APZ and fire trails as well as incorporating a strategic burn program.

Retained habitat within the proposed Biodiversity Stewardship Site and connectivity corridor areas is considered sufficient and viable for the Dural Land Snail provided that adequate restoration efforts are undertaken in accordance with the VMP.

Implementation of the attached VMP and attached BSSMP to protect insitu CEEC vegetation and ensure restoration measures to improve vegetation integrity are introduced and perform to expectations.

Outcomes for the Shale-Sandstone Transition Forest of the Sydney Basin Bioregion include:

- Almost 55 ha of the proposed lands will be set up in the agreed conservation area as a biodiversity conservation/stewardship site to be registered on title and managed under a VMP and BSSMP. Approximately half of this land contains Shale-Sandstone Transition Forest of the Sydney Basin Bioregion.
- 27.23ha will be impacted by the proposed Action and 28.71ha will be protected in perpetuity under the proposed Biodiversity Stewardship Site / conservation area. Additional offsetting will be provided via the Biodiversity Offset Scheme (BOS) with any additional offset credits sourced offsite.

Outcomes for the Dural Land Snail habitat include the implementation of Dural Land Snail re-location protocol and implementation of the BOS. If the Biodiversity Stewardship Site does not adequately offset the impact in terms of credits under the BOS (i.e. a shortfall), the additional credits will be obtained offsite.

Sec	tion 5			
Cond	clusion on the likelihood of significant impacts			
5.1 Y	ou indicated the below ticked items to be of significant impact and therefore you consider the action to be a controlled			
actio	n en			
	World Heritage properties			
	National Heritage places			
	Wetlands of international importance (declared Ramsar wetlands)			
\subseteq	Listed threatened species or any threatened ecological community			
	Listed migratory species			
	Marine environment outside Commonwealth marine areas			
	Protection of the environment from actions involving Commonwealth land

	A water resource, in relation to coal seam gas development and large coal mining development			
	Protection of the environment from nuclear actions			
	Protection of the environment from Commonwealth actions			
	Commonwealth Heritage places overseas			
	Commonwealth marine areas			
	5.2 If no significant matters are identified, provide the key reasons why you think the proposed action is not likely to have a			
signi	significant impact on a matter protected under the EPBC Act and therefore not a controlled action			
Lie	Listed threatened species and threatened ecological communities identified			

Section 6

Environmental record of the person proposing to take the action

6.1 Does the person taking the action have a satisfactory record of responsible environmental management? Explain in further detail

Nanshan has successfully operated the existing facilities on the Land for 12 years, without any concern from environmental regulation authorities or any significant pollution events or damage caused to the nearby river, etc.

Despite Nanshan having no formal environmental policy in place, Nanshan takes seriously its environmental responsibilities, as well as its role as custodian of the Land and its biodiversity values. Nanshan is committed to ensuring continued environmental compliance in carrying out the activity, including by third party contractors and all contracts will include conditions to comply with all relevant environmental laws and regulations, including any of Nanshan's consent conditions that are relevant to their specific operation as well as a requirement to engage in a productive manner for improving environmental and sustainability performance.

6.2 Provide details of any past or present proceedings under a Commonwealth, State or Territory law for the protection of the environment or the conservation and sustainable use of natural resources against either (a) the person proposing to take the action or, (b) if a permit has been applied for in relation to the action – the person making the application

Nanshan has not had any past or present proceedings under a Commonwealth, State or Territory law for the protection of the environment or the conservation and sustainable use of natural resources against either (a) the person proposing to take the action or, (b) if a permit has been applied for in relation to the action — the person making the application.

	. ,	
f it is a (framew	•	n undertaking the action will the action be taken in accordance with the corporation's environmental policy
Yes	\subseteq	No
	•	ting the action previously referred an action under the EPBC Act, or been responsible for undertaking an the EPBC Act?
Yes	\subseteq	No

Section 7

Information sources

Reference source

Refer to references in the attached EPBC Ecological Assessment Report May, 2021.

Reliability

Many of the sources are published guidelines and reports. Data gathered to prepare the reports included in this application has been gathered in accordance with published guidelines and legislative requirements. Some have been peer reviewed. Section 2.5 of the attached EPBC Assessment Report May 2021 provides information on survey limitations.

Uncertainties

The limitations of the surveys and studies (including accuracy) are provided in Sections 2.5 and 2.6 of the attached EPBC Ecological Assessment Report May 2021.

Section 8
Proposed alternatives
Do you have any feasible alternatives to taking the proposed action?
Yes ☑ No

Section 9		
Person proposing the action		
9.1.1 Is the person proposing the action an organisation or business? Yes No		
Organisation		
Organisation name (as registered for ABN/ACN)	NANSHAN HOLDINGS (AUST) PTY LTD
