

Appendix A Definition of Codes and Terms Used to Describe Conservation Significance

Fauna may be accorded legislative protection by being listed under the *Environment Protection and Biodiversity Conservation Act 1999* (Cwth) (EPBC Act) and/or the *Wildlife Conservation Act 1950* (WA) (WC Act), or by being listed on the WA Department of Parks and Wildlife's Priority Species List. This Appendix presents a summary of the different rankings and listings used to describe conservation status. Some categories, such as 'extinct', 'extinct in the wild' and 'conservation dependent' (EPBC Act) are not presented here, as the table includes only the information needed to understand the codes presented in the preceding report. Refer to the relevant legislation for full descriptions of all codes in use, as well as their associated criteria.

Status	Code	Description
Categories used under the EPBC Act		
Critically Endangered	Cr	Fauna that is considered to be facing an extremely high risk of extinction in the wild in the immediate future
Endangered	En	Fauna that is considered to be facing a very high risk of extinction in the wild in the near future
Vulnerable	Vu	Fauna that is considered to be facing a high risk of extinction in the wild in the medium-term future
Migratory	Mi	Species that migrate to, over and within Australia and its external territories
Schedules used under the WC Act		
Critically Endangered	Schedule 1	Fauna that is rare or likely to become extinct, as critically endangered fauna
Endangered	Schedule 2	Fauna that is rare or likely to become extinct, as endangered fauna
Vulnerable	Schedule 3	Fauna that is rare or likely to become extinct, as vulnerable fauna
Presumed Extinct	Schedule 4	Fauna that is presumed to be extinct
Migratory	Schedule 5	Birds that are subject to international agreements relating to the protection of migratory birds
Conservation Dependent	Schedule 6	Fauna that are of special conservation need being species dependent on ongoing conservation intervention
Special Protection	Schedule 7	Fauna that is in need of special protection
Priorities assigned under the DPaW Priority Fauna List		
Priority 1	P1	Taxa with few, poorly known populations on threatened lands. These are known from few specimens or sight records from one or a few localities on lands not managed for conservation, e.g. agricultural or pastoral lands, urban areas, active mineral leases. The taxon needs urgent survey and evaluation of conservation status before consideration can be given to declaration as threatened fauna
Priority 2	P2	Taxa with few, poorly known populations on conservation lands. These are known from few specimens or sight records from one or a few localities on lands not under immediate threat of habitat destruction or degradation, e.g. national parks, conservation parks, nature reserves, State forest, vacant Crown land, water reserves, etc. The taxon needs urgent survey and evaluation of conservation status before consideration can be given to declaration as threatened fauna
Priority 3	P3	Taxa with several, poorly known populations, some on conservation lands. These are known from few specimens or sight records from several localities, some of which are on lands not under immediate threat of habitat destruction or degradation. The taxon needs urgent survey and evaluation of conservation status before consideration can be given to declaration as threatened fauna
Priority 4	P4	Taxa in need of monitoring. These are considered to have been adequately surveyed, or for which sufficient knowledge is available, and which are considered not currently threatened or in need of special protection, but could be if present circumstances change. These taxa are usually represented on conservation lands
Priority 5	P5	Taxa in need of monitoring. These are not considered threatened but are subject to a specific conservation programme, the cessation of which would result in the species becoming threatened within five years

Appendix B Vertebrate Fauna Previously Recorded and/or Have Potential to Occur in the Vicinity of the Study Area

Pythonidae																			
<i>Antaresia perthensis</i>	Pygmy Python								*						*				
<i>Antaresia stimsoni</i>	Stimson's Python			*	*	*			*						*				
<i>Aspidites melanocephalus</i>	Black-headed Python					*			*		*	*							
<i>Liasis olivaceus barroni</i>	Olive Python (Pilbara)	Vu	S3	*			*		*	*				*					*
Sphenomorphidae																			
<i>Ctenotus brooksi</i>	Wedgesnout Ctenotus								*										
<i>Ctenotus calurus</i>	Blue-tailed Finesnout Ctenotus								*										
<i>Ctenotus duricola</i>				*		*			*		*	*	*	*	*	*			
<i>Ctenotus grandis</i>	Grand Ctenotus			*	*	*			*		*	*	*	*	*	*			
<i>Ctenotus hanloni</i>	Nimble Ctenotus			*		*			*		*	*	*	*	*	*			
<i>Ctenotus helenae</i>	Clay-soil Ctenotus			*	*	*			*		*	*	*	*	*	*			
<i>Ctenotus pantherinus</i>	Leopard Ctenotus			*	*	*			*		*	*	*	*	*	*			
<i>Ctenotus robustus</i>	Robust Ctenotus														*				
<i>Ctenotus rubicundus</i>	Ruddy Ctenotus								*					*	*				
<i>Ctenotus saxatilis</i>	Stony-soil Ctenotus			*	*	*			*		*	*	*	*	*	*	*		
<i>Ctenotus schomburgkii</i>	Barred Wedgesnout Ctenotus													*					
<i>Ctenotus serventyi</i>	N-W Sandy-loam Ctenotus								*						*				
<i>Ctenotus uber</i>															*				
<i>Eremiascincus fasciolatus</i>	Narrow-band Sand-swimmer								*		*	*		*					
<i>Eremiascincus isolepis</i>	Northern Bar-lipped Skink			*		*					*		*		*	*			
<i>Lerista bipes</i>	North-western Sandslider			*					*		*	*	*		*				
<i>Lerista clara</i>									*		*			*	*	*			
<i>Lerista flammicauda</i>	Pilbara Flame-tailed Slider								*				*	*		*			
<i>Lerista muelleri</i>	Wood Mulch-slider			*		*			*			*	*	*	*				
<i>Lerista zietzi</i>														*
